

COMPANY PROFILE

Over the past few years, ISTG has been successful in developing good relationships with elite customers and manufacturers/suppliers globally. ISTG has supplied materials to some of the most prestigious Oil, Gas, Petrochemicals and Power projects across the State of Qatar. This success was achieved due to various factors some of them being adherence to delivery commitments, offering competitive pricing, nurturing employee skills and investments in efficient systems and processes.

Our Team

We believe our human resource is the most important asset of our company. We are a group of individuals who have brought in pool of varied experiences and intellect to the company. A common element that binds our efforts is a drive to serve customer requirements in all situations.

Vendor Database

Associated vendors are an integral part of any supply chain business. We have built an active vendor database of local and international quality companies providing us access to varied products and services. Performance of vendors is evaluated on regular bases to ensure good quality products are available at competitive prices. We have established preferential prices and priority deliveries with various vendors.

Our Clients

ISTG has been extensively working with EPC contractors in building of, gas, petrochemical, chemical process plants & power plants. Having to cater to extremely urgent requirements; we have been seasoned in providing quick turnarounds with quality products at competitive prices. After project commissioning, our credentials allow us to be registered with the project owners and thereby continue service to the plant.
